

MAKERS OF TRUSTS ARE FOES OF LABOR, WILSON POINTS OUT

Governor Says They Fight Organization of Unions and Keep Down Wages.

NORTON, Kas., Oct. 8.—That the very men who have been most successful in building up the trusts are also the very men who have been most successful in preventing the organization of labor," was the contention of Gov. Woodrow Wilson in an address here to-day.

"Don't you know," he asked, "that one of the objects of their combination is to control the labor market? And do you imagine that they have ever set deliberate plans for giving the workingman anything comparable in the way of wages to the proportion of the profits which they themselves pocket? They do not have to give the laboring man any more than he can get in the competition of the market. And they do not give him any more."

"As a matter of fact, some of the most highly productive industries in this country pay very much lower wages than the unprotected industries. And some of the most highly protected industries pay wages that are below the living scale, at the same time that the prices they are making are so great that they can build new factories out of their surplus every second year."

"It is one of the greatest pieces of bluff and humbug that has ever been known in the history of political deception."

"I want to widen the market for American labor. I want to see conditions exist in which men will compete for American labor. I want again to see a time when we shall realize that the highest priced labor in the world is the cheapest labor in the world, that wage is produced by brains and intelligence and skillful touch is a great deal cheaper than what is produced by stupidity and dullness and the whip of the master."

"Tell you this, that American labor up to date is the cheapest in the world. I can prove it. American manufacturers compete in foreign markets in the scale of goods manufactured in those markets, near those markets, by labor that receives one-third the remuneration of American labor. Now, what does that mean?"

"It means they can afford to pay American workmen three times as much and still undersell their competitors in the foreign markets, and yet the American workman is told that the amount of his wages depends upon his protective tariff. It doesn't depend upon him. It depends upon what is inside of the tariff box. And when you once get to a system of controlled labor, don't forget that. Narrow the lines of competition and you stiffen the lines of labor control. You have now a free market for your labor any more than you have a free market for your committies; for under this system of monopoly, regulated or unregulated, the monopolists can determine the amount of goods to be produced, and therefore determine the amount of laborers to be employed and the prices that the goods are to bring."

OUR AVIATORS TOO DARING, JACQUES SCHNEIDER THINKS.

French Aero Club's Head Sails With Trophy Won in Chicago.

The Kronprinzessin Cecile of the North German Lloyd Line sailed away from America to-day with Jacques Schneider, president of the Aero Club of France, and the James Gordon Bennett cup, twice won by American aviators and now fallen into the hands of the French through Verdine's victory at Chicago.

"I do not think the cup will come back to America again unless your aviators cut out the wild and crazy flying in the grand stand," said M. Schneider. "In America there is too much circus flying. For the applause of the crowd, aviators do sensational figures that mean a risk of their lives with no concomitant advance in the science of flying."

"In France we do things differently. Our aviators do not take risks that will not prove a benefit to progress, and for that reason Verdine was able to fly at the rate of 166 miles an hour at Chicago."

M. Schneider believes that the next step forward will be the invention of an aeroplane which will rise straight into the air like an elevator, drawn by a rotary wing above. He believes that such a machine could start off on a lateral course at two hundred miles an hour when the proper altitude had been reached.

EXCURSIONS.

AMERICA'S GREATEST FLEET IN AMERICA'S GREATEST HARBOR STEAMER PATTEN THOMAS PATTEN

10 A.M. to 4 P.M. \$7.50. Nightly Warships are illuminated.

Fare, round trip, 50¢.

FEEL FINE! LIVER RIGHT, STOMACH SWEET. HEADACHE GONE—CASCARETS

Cascarets make you feel bully; they immediately cleanse and sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any druggist will keep your Stomach regulated. Head clear and Liver and Bowels in a splendid condition for months. Don't forget the children.

Out Of Order Stomach Makes You Nervous And Quarrelsome

To enjoy food and at the same time derive proper benefit therefrom, your stomach must be in a healthy condition. If your stomach is upset and out of order choice foods fail to tempt you and you will be nervous and quarrelsome. A bad, out-of-order stomach is a forerunner of many serious diseases.

When you feel run-down and half sick, have a bad taste in the mouth, coated tongue; when you are droopy, nervous, feel bloated after eating, and your food lies heavy on your stomach, you can make up your mind that at the bottom of all this there is one cause—stomach trouble.

Prove to yourself after taking a little?

Cooper's New Discovery

that there is nothing wrong with your stomach. Stop this fermentation of food and begin eating what you want without fear of indigestion.

Cooper's New Discovery tones up the system, puts the digestive organs in a healthy condition, rids the body of all poisons and excessive gas, makes rich, red, healthy blood, helps the liver and kidneys and makes life worth living.

Go to your druggist right now and get a bottle—take three doses, one before each meal, and if you don't feel the immediate benefit of it, simply return the bottle to your druggist and get your money back.
